

*"An oasis is a shady fertile space in the desert,
providing rest and nurture for travellers.
Revitalised and inspired with new ideas,
they make plans for the next episode."*

"Coaching with Oasis" unveils rich information in a blink. It is a fabulous instrument for coaches, consultants, trainers, politicians, managers et cetera.

Place the issue 'out of the head' in a three-dimensional space; enabling the mind to come to rest. The image provides overview of the complex inner relations. This external view - zooming in and out - together with the felt sense produces new insights, new perspectives and new opportunities.

For those trained in systemic constellations, it is marvellous for 1-to-1 sessions or teams. The table image unveils at least as much as "human representatives".
